👤 PROFILE

Passionate and self-motivated full-stack developer with 3 years of hands-on learning and 6 months of professional experience in dynamic environments. Skilled in React, JavaScript, Tailwind CSS, GSAP, and backend tools like Node.js, MongoDB, and Next.js. Completed freelance projects demonstrating practical problem-solving and adaptability. Committed to building scalable, maintainable apps and growing within collaborative, tech-forward teams. Always eager to learn new technologies and deliver high-quality user experiences.

💼 WORK EXPERIENCE

American Techknowledgy   OCT, 2024 - MAR, 2025
Frontend Developer

- Started as a front-end development intern and was offered a full-time role based on consistent performance and dedication.
- Developed responsive, high-quality user interfaces using React and Tailwind CSS, with a focus on scalability and user experience.
- Built a solid understanding of back-end tools like Node.js, Next.js, and API integration, allowing for seamless integration between front-end and server-side logic.
- Collaborated effectively within cross-functional teams, improving in version control (Git), agile workflows, and real-world problem solving.
- Maintained consistent UI design and clean component architecture across projects to ensure a cohesive and accessible user experience.

A . M Public Academy
GRADE: A

HSSC Part 1   Apr, 2024 - Apr, 2025
IQRA Foundation
GRADE: A+

⏻ BEYOND THE CODE

Outside of work, I love creating short-form informative videos on YouTube, Instagram, and TikTok — mostly about tech, coding tips, and developer life. I also contribute to open-source projects, and enjoy helping others in the GitHub community by answering questions and sharing knowledge.
